Bonus Calculation

- The calculation is based on Actual Total Sales compared to the Monthly Planned Sales. (This includes both donated sales, purchased item sales, and Online Sales)
 - Donated Goods Revenue: this will include any money generated from the sale of items **donated** to Goodwill and sold through the assigned store or online sales.
 - Non-Donated Goods Revenue: this will include any money generated from the sale of items **purchased** by Goodwill and sold through the assigned store or online sales.
- Incorrectly accounting for sales made of purchased goods into the donated goods category may cause disciplinary action up to forfeiture of bonus and/or termination.
- The bonus amount will be paid based on the percentage over the goal from the table below
- Percentages will be rounded to the 2nd decimal place.
- A half share will be ½ the bonus for the assigned position. If an MIT fulfills the store location's sole role of Store Manager, the MIT will receive the calculated bonus for that position.
- Otherwise, the bonus will be the same as the Assistant Manager/Lead Associate.
